

OUR PASSION:
RAISING CREDIT SCORES!
THROUGH CREDIT IMPROVEMENT TECHNOLOGIES
WAY BEYOND CREDIT REPAIR

HISTORY

In the year 2000 the Financial Industry adopted the FICO (Fair Isaac Company) Scoring Model to determine a person's creditworthiness. Specific factors were given certain amount of weight in the creation of the score.

OUR APPROACH

TWO PATHS are required to help you raise your credit scores!

Founder: Steve Gangey

PATH ONE: Address the negative items on your credit report, and attempt to get them removed. We have been successful at removing some tradelines (accounts) without making a payment! Unlike our competitors in Credit Repair that only know how to Dispute records at the credit bureaus.

PATH TWO: We help you establish positive new credit and teach you how to use it to raise your credit scores!

We are Tech-Savvy and use many free Internet tools to communicate with our clients around the world. Dropbox, Skype, email, telephone, and Fax are the preferred methods.

- * EDUCATION * COUNSELING *
- * IMPROVEMENT *
- * PRO CREDIT * ANTI-DEBT *

MAKE A PLAN: Our Profile Review Program provides initial counseling, and a review of your credit profiles (reports) from all three credit bureaus. If what is required is simple we explain what you can do to take care of it, and send you on your way. Or you may enroll in the Ultimate Credit Improvement Program.
